Asbestos Consulting

AEHS provided Asbestos and Lead Consulting Services to Lackland Air Force Base on an Indefinite Delivery Indefinite Quantity Contract (IDIQ) Contract. The asbestos portion included Asbestos Inspections, Asbestos Project Management to include all associated air monitoring, and Asbestos Project Design. Additionally, Asbestos Management Plan for the facility was updated and rewritten under the auspices of this contract as well as advice on handling specific issues. For example, the clarification of the USAF Base falling under NESHAPS and the “commercial” definition of the Texas Asbestos Health Protection Rules but not all other requirements.

AEHS is also used by the City of Fredericksburg as an on-call bases for not only complete building surveys but also when asbestos inspections prior to small renovations. This support included the development of Asbestos Management Plans and Asbestos Abatement Design Specifications.

Other clients associated with major Asbestos related activities include:

City of Rockdale
Brooke Army Medical Center
Audie Murphy Veteran Medical Center
Allied Feeds, Inc.
Order of the Benedictine Sisters

U.U. Housing Assistance Corporation
Randolph Air Force Base
Fort Sam Houston
Big Springs Federal Prison
Neathery Environmental Services

Asbestos training has been provided to the personnel throughout the city and state to include the City of San Antonio Environmental Service Department, City of San Antonio Health Department, Gillespie County, City of Austin, and every military base in the San Antonio area.

The personnel who are associated with these contracts have been involved with asbestos for over 100 years collectively, conducted research on the health effects of exposure to asbestos, and have testified before Congressional Hearings on Asbestos. Additionally, they have been the primary advisors to the Surgeon Generals of the Air Force and the Army and effected over 40 changes to the current OSHA regulation on asbestos (29 CFR §1926.1101 – Asbestos in the Construction Industry).

For more information about the Asbestos Program, please contact Ron Bishop, CIH, at (210) 656-9300 or at rmbishop@texas.net.
