Technical Training Services

AEHS, Inc. provides classroom training and quality hands-on experience in several technical areas. Additionally, AEHS has the *capability to teach courses in Spanish*.

All technical training services are provided by professionally credentialed staff, who are experts in their respective specialties. The training facilities include classroom areas for instruction with the capability to hold up to 20 students per area, as well as, space specifically designed for hand-on activities. This includes a simulated abatement area for both lead and asbestos where students can practice the techniques necessary to complete a job successfully. Students leave with real world skills and knowledge making them ready to perform on the job site.

Licensed Asbestos Training Provider, No. 000068, (All TDH/EPA Courses)
Certified Lead Training Provider, No. 204039, (All TDH/EPA/HUD Courses)
